Open To: Internship | Junior Data Analyst | SQL Developer | Analytics Roles

Professional Summary

Building data-driven applications, reporting systems, and analytics solutions using SQL, Python, and modern database technologies. Focused on transforming raw operational data into reporting dashboards and measurable business insights.

Professional Focus

Seeking opportunities in Data Analytics, SQL Development, and Business Intelligence where I can build reporting systems, analyze business data, and contribute to data-driven decision making.

Technical Skills

Data Analytics	Python, Pandas, NumPy, Matplotlib, EDA, Data Cleaning, Data Transformation
Database & Querying	SQL, SQLite, PostgreSQL, Supabase, Database Design, Query Optimization
Business Intelligence	Excel, KPI Reporting, Dashboard Development, Business Reporting, Data Visualization
Development Tools	Git, GitHub, VS Code, Jupyter Notebook, Postman
Programming	Python, SQL, C++

Projects

DUKAN App Reporting & Analytics Module

SQLite, SQL, React Native

- Designed reporting modules for sales, inventory, and customer credit management.
- Generated business reports for invoice tracking and operational monitoring.
- Built SQL queries for financial calculations, aggregation, and KPI reporting.
- Developed dashboard views for monitoring business performance and decision support.

Business Data Analysis Project

Python, Pandas, SQL

- Cleaned and transformed datasets for analysis and reporting.
- Performed exploratory data analysis to identify patterns, trends, and anomalies.
- Applied SQL filtering, grouping, and aggregation for structured reporting.
- Built Matplotlib visualizations to communicate findings clearly.

Inventory Management System

Python, SQLite, Tkinter

- Developed a desktop inventory management application.
- Implemented CRUD operations with SQLite integration.
- Built stock monitoring, search systems, and inventory reporting modules.
- Designed GUI interfaces using Tkinter.

Education

Government College University Faisalabad

BS Computer Science (Bridging) | 2026 - Present | CGPA: 3.54 / 4.00 | Coursework: Database Systems, Statistics, Data Structures, Programming Fundamentals

Riphah International University, Faisalabad

Associate Degree in Computer Science | 2022 - 2024

Shiblee College of Commerce, Faisalabad

Intermediate in Computer Science (ICS) | 2019 - 2021

Govt. Islamia High School Gutti, Faisalabad

Matriculation in Computer Science | 2017 - 2019

Certifications

- Introduction to SQL - Simplilearn SkillUp
- Python for Data Science - IBM Cognitive Class
- SQL and Relational Databases 101 - IBM Cognitive Class
